

# Plymouth Hybrid Work Experience

## We are EDT!

The UK's largest STEM education charity.

Our aim is connecting young people with industries and inspiring STEM futures, with hands-on learning experience, supported by role models from some of the most exciting science and tech companies, global brands and innovative tech start-ups.

## What's involved?

- Insight into opportunities that local companies offer
- A chance to work alongside industry experts and ask questions
- A unique company visit
- Help with interview skills
- A introduction to four local companies
- Pitch your STEM solution to the company

## What is Plymouth Hybrid Work Experience about?

- A 4 day hybrid work experience for year 9,10 and 11 student's in Plymouth and surrounding areas
- Creating an exciting STEM solution for a company
- Support from a real STEM Professional who is based at a local Plymouth STEM company
- Helping to inform local next steps and STEM career choices.

## When is it?

- 23rd-26th of October 2023
- Three days virtual, one face to face company visit day

Students will graduate as an **Bronze-Level Industrial Cadet**
